

BFR384

XENON FLEX JACKET RESCUE HIVIS

Part of a layered rescue and structural fire kit based Ballyclare's Xenon range which provides maximum comfort with minimum bulk. Fullness is built into the shoulders, elbow and knee areas where flexibility is a must. The sleeve enables full 360 degree movement allowing firefighters to carry out their duties effectively. The full ensemble consists of a rescue jacket that can be worn with full structural trousers. This light weight outer tunic, when worn over the rescue jacket, provides full EN469 structural protection.

PRODUCT DETAILS

- Heat applied segmented reflective tape - yellow/silver/yellow
- Over tunic is closed by central one way zipper
- Over tunic has sleeve adjustment at the wrist
- Concealed Velcro on outer tunic to attached shoulder bib
- Conforms to EN469 when worn with BFR385 (and conforming over trousers FIR345)
